MAY DAY ECHOES.

The Demonstrations Yesterday of a Generally Peaceful Nature, Though Ill-feeling Showed Itself Occasionally.

LONDON, May 2.—May day on the continent, where such vast preparations had been made for trouble, passed off with unexpected quiet. There were a few isolated cases of disturbance, most of which have been already reported. Holland, where no disorder was feared, gave one instance at a late hour last night. At Leeuwarden, in Friesland, seventy miles from Amsterdam, after a day of comparative good behaviour, the mob rose in the night and marched through the main streets stoning the public buildings and houses of prominent citizens. When the police sought to interfere, they were met with determination by the rioters and there was some desperate fighting. The troops had to be finally called upon, whereupon the mob dispersed.

Italy suffered more from the agitation than any other country except Belgium. There the police and troops had to cover the whole country. Fortunately there was no outbreak in any of the principal cities, owing to the excellent preparations made by the authorities. At Smigaglia a bomb was exploded opposite the Cafino, and caused much damage to the walls, windows and furniture, but nobody was injured. Two bombs were exploded at San Andrea, near Trieste, yesterday.

Throughout Germany the display took the form of a May day festival, spoiled more or less by the weather, which acted as a check on an excessive ebullition of enthusiasm. The police had little to do, and the military were not seen during the day, being kept strictly in their barracks.

PARIS, May 2.—A quantity of explosives was seized yesterday in anarchists' residences at Villeneuble, the police having got wind of a plot to destroy the Hotel de Ville. One person was arrested. A number of others escaped.

BRUSSELS, May 2.—At Aublin, a town near Couvin, in the province of Namur, a dynamite bomb was exploded in front of the Burgomaster's house yesterday. Little damage was done.

MADRID, May 2. At Seville yesterday a priest found a bomb with a lighted fuse on the floor of his church confessional and extinguished it.

BARCELONA, May 2.—The police found a bomb in one of the streets yesterday and arrested seventeen persons.

IMPORTANT AMENDMENT

To the Australian Ballot Law, Which Every One Should Know.

The city election Tuesday will be held under the Australian law, and it is well for voters and election officers to note the various amendments made to the law by the last legislature. They are as follows:

Political parties are allowed to pay one challenger and one poll book holder if they so desire, not to exceed $3 each at any election.

The square on the ballots in front of the title of each party is abolished, and the device or emblem is to be enclosed in a square not less than one and one-half inches on each side. Names of candidates must be exactly three fourths of an inch apart, and the square before each name must be three eighths of an inch on each side. A voter who wishes to vote a straight ticket of either party must stamp within the large square.

The initials of the poll clerk must be written on the upper right-hand corner of the ballot, instead of the lower left hand corner as heretofore.

Employers and employes may agree on the four hours allowed for voting, instead of being restricted to the first four hours of the day.

A heavy penalty is provided for marking, mutilating or defacing a ballot.

An amendment to section fifty-two of the law is intended to exclude "watchers" from the room during the count, but by its wording it may just as readily be construed to admit them.

CONFLICTING REPORTS

As to the Harmony of the Meeting of the Brotherhood Yesterday.

NEW YORK, May 2.—A secret meeting of division No. 157, Brotherhood of Locomotive Engineers on the Central railroad of New Jersey, was held in Jersey City yesterday. Conflicting reports as to the action and conduct of the meeting were given by those present. M. N. Clapp, who presided said that the meeting was entirely harmonious and that no trouble was anticipated with the railroad officials. Other engineers, however, declared that the meeting was exciting and stormy, and that they would not be surprised if a strike was ordered, as the Reading system did not intend to make a uniform but a lower rate of wages.

FIELD DAY.

The Outing Club Will Celebrate on Decoration Day.

The Y. M. C. A. Outing club have decided to have field day on Decoration day at League park. Dr. Hawks will direct the exercises, which will consist of all the popular athletic sports. The members have already begun to practice.

SHAMROCKS.

A New Society Organized in this City Yesterday.

At a meeting held in the Knights of Pythias hall yesterday a new society, composed exclusively of Irish citizens, was organized under the name "Shamrocks." The name "Shamrock," it is said, is merely a local name used to cover a more widely known title. When a candidate is taken into membership he is not told the object of the society until he has taken the first initiatory step, and then if he has any objections he is allowed to withdraw without having seen any of the mysteries of the society or knowing to whom he has been talking. The society started out with a membership roll of about forty members.

COLD, CLAMMY CORPSE.

Edward Boozer, a Fireman on the Nickel Plate Railroad Found Dead in Bed.

At 10 o'clock today Edward Boozer, a fireman on the Nickel Plate railroad, was found dead in his bed at his boarding house, No 345 West Main street. Heart disease is supposed to have been the cause of his death. He worked as usual up to last night, and retired without any apparent ill health very late. Failing to make his appearance at the breakfast table, one of the houses hold went to his bedroom door to call him. Receiving no response it was supposed he was sleeping heavily and no further effort was made to rouse him at that time. At 10 o'clock another attempt was made to awaken him and again receiving no answer the door was forced open, when the awful discovery was made that Boozer was dead. His body was cold, indicating that he had been dead some hours. The deceased was a popular young man about twenty eight years old and unmarried. He was a member of several lodges, among them Summit City, F. & A. M., Fort Wayne Chapter, R. A. M., and Fort Wayne, 116, K. of P.

WORK OF THE FLAMES.

Millions of Dollars Wasted in a Day by the Fiery Elements—Cincinnati a Heavy Loser.

CINCINNATI, Ohio, May 2.—The Crane Lumber company's stable, Kloeke's saloon and dwelling, Smith's dwelling and saloon, Pugan's planing mill and over 500,000 feet of lumber belonging to Crane & Co., was burned last night, entailing a loss of $30,000, fully covered by insurance. The cause of the fire is unknown, but it is supposed to have been caused by a man under the influence of liquor who was seen to go into a carpenter shop, light a match and in some way ignited the inflammable material there. The man has not yet been found.

MOUNT STERLING, Ky., May 2.—Early this morning the following business houses were destroyed by fire. The Sentinel newspaper office, J. H. Brunner's shoe store, the postoffice, Hainley's bazaar, Emerle's bargain store, business houses of T. P. Martin & Co., dry goods and notions, Walt M. Gay & Co., groceries, and Mrs. Kate O. Clark, millinery. The total loss is about $50,000, with insurance aggregating one-half that sum. The entire contents of the postoffice, valuable mail matter, etc., were destroyed.

PARIS, May 2.—A telegram says that the grand circus at Troyes was set on fire yesterday, presumably by anarchists, and burned to the ground. The flames spread to and destroyed three adjacent houses. While the fire was burning a loud explosion was heard in the interior of the circus.

BUDAPEST, May 2.—While yesterday's demonstration was in progress, a fire broke out in Nicholson's machine factory, and a rumor spread that the fire had been started by workingmen to enable them to loot the establishment. The proprietor denies, however, that the fire was of incendiary origin. An immense crowd gathered and the police experienced difficulty in keeping sufficient space for the operations of the fire brigade. The building was completely gutted. The loss amounts to about $100,000.

BASE BALL.

A Game at League Park Sunday Afternoon—League Games.

Two or three hundred people witnessed a good game of ball at League park yesterday afternoon, between the Fort Waynes and Pilseners. Gaffney pitched for the Pilseners, and while he was fairly effective, his support was very poor. Robbins pitched for the Fort Waynes and was well supported. The teams were constituted as follows:

Fort Waynes—Boseker, catcher; Wurzbe, short stop; Bruton, third base, Hubbard, second base; Mariotte, center field, McDarby, first base; J. Raidy, left field; Robbins, pitcher, Ingram, right field.

Pilsner—Smick, short stop; W. Raidy, first base; C. Stahl, left field; Gaffney, pitcher; Welch, third base; Collars, center field; Heit, catcher; July, second base; H. Stahl, right field.

The feature of the game was a double play by C Stahl. He caught a long foul from Bruton's bat in one hand while on the run and threw Wirsche out at second.

Following is the score by innings:

Fort Waynes.....2 5 0 0 0 0 3 0 *—10
Pilsners.....2 0 2 0 0 1 2 0 0—7

Batteries—Robbins and Boseker, Gaffney and Heit. Umpire—Edward Shell.

The open lots at the corner of West Washington and Griffith streets have long been a place of meeting for out door sports by the youth of the west end. Here every afternoon there can be found playing the great American game of base ball. They cries of: "Throw it home, put it to first, home run," etc. fill the air with almost an equal enthusiasm as are wont to emanate from League park. But occasionally a cloud appears on the horizon. A great blue coated, brass buttoned policeman will suddenly pop out from an alley, or around an unwatched corner, and then consternation most dire will fall upon the disciples of Anson. The game at once loses all interest for the players, and no matter where Billy Burke or Patsy O'Rourke may have knocked the ball, be it infield or away past center, they at once start for a "home run," with their coats trailing behind them, and in less than a second of time not a boy can be seen in the neighborhood, while a calm, almost deathlike, prevails over the scene, where all was noise and excitement but an instant previous. Such is a daily occurrence, but yet the youths continue to assemble, when the coast is clear.

HENRY WATTERSON

Gives His Views on the Situation and Declares Cleveland's Nomination Would be Suicidal.

LOUISVILLE, Ky., May 2.—Henry Watterson, in a letter from Washington, reviewing the political situation, concludes as follows: "I believe and I hope that the disappearance of Governor Hill from the held seem of, conceiture, and the apprehension of his alleged methods allied, the clear good sense of the party will reassert itself, and that two months hence all democrats will see, as plainly as is now seen by democrats who are advised of the true situation, that the nomination of Mr Cleveland would be an act of suicide, and because of two simple conclusive reason. First—He would lose the state of New York as surely and as disastrously as it was lost by Judge Falger when a hundred thousand republicans stayed away from the polls and gave the state to Mr. Cleveland by nearly two hundred thousand majority. Second—With his proclaimed and extreme views upon silver coinage we could not hope to gain votes in a single one of the republican states of the northwest, and would surely risk the loss of such states as West Virginia, Virginia and North Carolina."

AN ODD COLLECTION.

Peculiar End of a Well Known Local Barber.

There are fads, and fads, but of the most recent coming to the attention of a SENTINEL reporter, is that of a collection of hair by tonsorial artists. A prominent barber Saturday stopped in the midst of his work, and walking to another chair, in which was an auburn haired youth, who was being divested of his spring crop, picked up a few fallen locks, remarking as he did so that the shade was a very peculiar one, in fact, one very rarely seen. After he had carefully wrapped the locks in paper and placed them away, he remarked that for some time he had been collecting hair of different shades, until now he had quite an assortment, ranging from the deepest black of the aborigines to the purest white of the Caucasian. Among the list are to be found almost every shade of color. Blondes, brunettes and auburn heads have contributed their quotas, the whole forming quite an interesting study. It is the intention of the artist to have his collection arranged in proper shape, framed and placed in his shop for the benefit of his patrons. The study is quite a pleasing one, and will attract considerable attention.

BIG MAY DAY FOR POLICE

Twenty Cases in Police Court—Houses of Ill Fame Raided—Other Court News.

Twenty cases were docketed in police court this morning. Eleven of this number were from the famous bawdy house of Mattie Clark, six men and five women being arrested at that resort. Each paid $15.50.

Four men, giving their names as Patrick Welsh, Benjamin Foster, John King and Charles Samson, and two women named Maria Fisher and Lena Sutter, were arrested in the house No 191 St. Mary's avenue, on the charge of prostitution. The Fisher woman retained Elmer Leonard as an attorney to try and prove that the charge was unfounded and simply a malicious doing of the Heller family, who live in the adjoining house, and who made complaint to the police.

Deputy Prosecutor Emrick called officer O'Ryan, Chief Wilkinson and Lieutenant Lapp to the stand, and each one testified that frequent complaints had been made as to the bad character of the house. The case occupied two solid hours, and then the mayor felt satisfied that a heavy fine would be justifiable. He therefore fined each of the six defendants $19.50. Attorney Leonard said the case would be appealed at once.

Charles and Leo Riley, young men strongly built and of the very tough stripe, gave Policeman Borgman and Gusching a hard tussle Saturday night. The fellows tried to "take the town" in the vicinity of the south depot, which no neighborhood they succeeded in terrorizing to a marked degree. When Borgman came upon the scene they valuntered to take him in a sewer, but the young officer declined to accommodate them and proceeded to take the desperadoes into custody. Gusching appeared in time to lend timely assistance. In police court this morning the Rileys had nothing to say and were summarily fined $2 and costs each. They went to jail.

Thomas Whitney, an obstreperous drunk, was arrested by Policeman O'Connor. He did not appear, but a relative was on hand with enough cash to pay his fine.

Judge O'Rourke today granted Bertha Kraus a divorce from Frank Kraus.

A runaway, in which one of Allen county's most prominent young farmers was probably fatally injured, occurred near Arcola last evening at 5 o'clock. Mr. and Mrs William Kinsley and their baby were returning from Arcola to their farm home in Lake township, riding behind a spirited young horse. As they were passing the residence of ex Trustee Jacob Shafer, the horse became frightened and was soon unmanageable. In its mad flight down the country road the wheels struck a stone and the occupants of the carriage were thrown violently to the ground. Mrs Kinsley and the baby escaped with a few slight bruises, but Mr. Kinsley was less fortunate. In the fall his head came in contact with a board fence with such force as to render him unconscious. Farmers living in the vicinity of the accident hastened to Mr. Kinsley's assistance and while one of the men hastened to the city for a physician, the others removed the unfortunate man to his home. Dr Myers was soon by the side of the injured man and upon examination he found the skull badly fractured. An operation, in which a piece of the bone two inches long by three quarters of an inch wide, was removed, failed to restore Mr. Kinsley to consciousness, and his recovery is very doubtful. Mr. Kinsley is the owner of a nice little farm in Lake township, the result of hard work and good financial qualifications. He is twenty six years old, married, and has one child. The news of the accident was conveyed to Al Melching, of Bloomingdale, who accompanied Dr. Myers to the house of the Kinsley's.

OTHER ACCIDENTS.

Last evening James A. Quince, bookkeeper for Louis Diether, met with a painful though not dangerous accident. He was descending the cellar steps at his home, No 54½ Broadway, when in some manner he slipped and fell. When he went to arise he discovered he could not stand on one of his feet, and shocks of pain shot through his ankle. Dr. Boswell was called. An examination showed that the ankle had been dislocated.

Last evening George Herrman, jr., the wholesale meat dealer, of Walton avenue, was leading a horse into the stable and in so doing was obliged to pass another horse of whose kicking propensities George was made painfully aware. The horse struck out with his right leg, caught Mr. Herrman amidship and inflicted severe injuries.

W. B. Walter was run down by an express wagon on Calhoun street Sunday and he was badly hurt about the face.

There was a lively and exciting runaway on the south side yesterday afternoon. A runaway horse swung around the corner of Baker street on Calhoun, heading south. Just before reaching the railroad he turned to the left and ran toward the Pennsylvania depot, made another short turn and landed against the ladies' walk back of the baggage room. But little damage was done. The horse started from Fairfield avenue.

While returning from a bicycle run to New Haven yesterday, David Jardine came into collision with a Safety rider at the corner of Fulton and West Wayne streets. The Safety man escaped uninjured, but Dave has a very badly sprained hand, and declares that the country road is a much safer spot to fall on than the asphalt pavements of the city.

Saturday evening Edward Sutter, the carpenter who resides at 509 Broadway, was driving down Calhoun street accompanied by his wife. Near the corner of Main street a farmer seated on a high wagon drove recklessly across Main street. He was driving his horse rather speedily, especially so considering the fact that the streets were crowded with vehicles and pedestrians. The farmer, heedless of the consequences, drove upon the Sutter carriage wrecking the rear wheels. Mrs Sutter was thrown out and slightly injured. Mr. Sutter escaped his feet uninjured.

The little daughter of John Kintz, living near the Centlivre brewery, fell into the old canal in that vicinity yesterday afternoon. The child's cries attracted the attention of a man who was passing, and he plunged into the water, saving the helpless one as she was going down the third time.

HOLOCAUST VICTIMS.

Charred Bodies of Actresses Pass Through the City.

No. 9, on the Pennsylvania road, which passed through the city last evening at 6 o'clock, carried three very valuable passengers. They were the two charred and almost unrecognizable bodies of Miss Fanchon Conyers and Miss Pearose Goldman, two actresses who fell victims to the dreadful fire which destroyed Charles Yale's theatre in Philadelphia a few nights ago. The third was Mrs. Goldman's sister, who escaped and who had charge of the remains. The interment will take place in Chicago today.

Charles Yale, the manager and proprietor of the dilapidated theatre is well known in this city, was the manager of a dime museum two years ago with M. Parker, the variety fiasco at the old Crystal Palace theatre for his little $25 a week. Today he is estimated to be worth $100,000 while his partner, poor M. is doing out a precarious existence on the Philadelphia variety halls.

WORLD'S MUSEUM—Big attractions.

Everyone should not neglect to go to the polls and vote tomorrow. Cast your votes for the best men.

Prof. W. L. Hutchinson, of Michigan City, has two war relics of great value, especially to newspaper men. They are evidence of great industry and patience in gathering and preserving in these latter days.

The state militia companies are becoming fairly well acquainted with the new tactics, and by the time the annual state encampment takes place all the companies are expected to be in good condition. There will be a good deal of rivalry among the Indiana companies for honors at the world's fair next year, and that fact is already sparring officers and men to make a first class showing. Only the best companies will be called on to go to Chicago.

Mr. Thomas Jefferson Coolidge, of Boston, has been nominated by the president as minister to France, vice Whitelaw Reid, resigned. He is a grand nephew of Thomas Jefferson, and was a staunch democrat until a few years ago. Being largely interested in protected industries, he left the party of his fathers because it advocated a tariff for revenue only, and has since been a large contributor to republican campaign funds. His wealth is enormous and he is said to look like a French feudal marshal.

Harrison's mind is gifted, whether for active enterprise of thought or charity, there lies around him a world of opportunity. So far behind are we socially, morally, intellectually, that one might be forgiven if he supposed the world were made but yesterday and nothing had yet been done. Does no ambition fire us to help the despairing, starving people around us? If a few more years be added to our life, would we not strive to put something right, to sweep out some little corner, to awaken some soul to see and rejoice in the coming light?

There is great dread of today in Paris. Recent anarchical demonstrations have awakened fears that the various anti-government factions will combine for a great demonstration under the pretense of celebrating Labor day. The police and military authorities are very active in preparations to suppress any possible outbreak, but the people have lost confidence in the efficiency of the police and perhaps in their absolute loyalty. It is probable that the fear of a great demonstration is greatly exaggerated, but Paris will lack much of its proverbial gayety until Labor Day is over.

There is an old saying that truth is stranger than fiction. If truth were half as strange as fiction, the world would be turned upside down in a day. The villains would all die miserable deaths; people would quarrel and make up, and be happy as if they had never quarreled; those who are in the way of other folks' happiness would die, or magnanimously go off and be happy with some one else, every girl would be a heroine, and would be rewarded with a good husband and a fortune. If truth were half as strange as fiction, we would all be happier than we can ever hope to be in Heaven.

The friends of Oklahoma statehood have given up the hope that their bill will receive a law at this session of congress. They probably would not admit it, but they made a wrong beginning. Oklahoma will not be permitted to come in as a state with its present boundaries. The Cherokee strip must be attached to it. If the friends of the measure had first sought to secure the opening of the strip as a preliminary step to their pet project, they might have accomplished both objects during this congress. But that did not agree with their scheme. They wanted two votes, and will now have to wait for a vote.

OUR STATE CANDIDATES.

Interesting Sketch of the Different Candidates, With Illustrations From Late Photographs.

The Sentinel gives its readers today an excellent illustration of the different candidates on our state ticket, with a sketch of their lives.

GOVERNOR.

CLAUDE MATTHEWS.

Claude Matthews, candidate for governor, was at the time his most acceptable candidate for secretary of state for Indiana, was born in Bethel, Bath county, Ky., the 14th of May, 1846. His father, Thomas A. Matthews, was a farmer, and also for a time a merchant at Bethel and Maysville. His paternal grandfather, George Matthews, commanded a company of soldiers at the battle of the River Thames, in the war of 1812. On his mother's side, Mr. Matthews traces his origin to the Fitzhugh family, one of the most worth name in the common wealth, and his maternal grandfather, Jefferson Fletcher represented the Bath district in the national house of representatives in the days of Henry Clay. Mr. Matthews was educated at Center college, Danville, Ky., where he graduated in 1867.

January 1, 1868, he married Miss Martha Henick Wilcomb, only daughter of James Wilcomb, one of the honored governors of this state. The young people moved to Vermillion county, in this state, in 1869, where Mr. Matthews settled down to the occupation he had chosen for his life work—the useful and honest calling of farming.

His capacity for public affairs and the evidence he gave of sensible ideas as to public needs, led to his selection by the Democrats of Vermillion county in 1877 as their candidate for representative in the legislature. That he was well appreciated by his neighbors was shown by more 500 Republicans of his county voting for him, and he had the honor of being the first Democrat elected from that county of heavy adverse majorities. His record in the legislature was a fine one, and in 1880 he had a strong following for lieutenant governor. In 1882 Mr. Matthews was a candidate for state senator in his district, and cut down the Republican majority of 900 to 200.

In 1890 he was nominated by his party for secretary of state and elected by a plurality of nearly 20,000. He has always been a Democrat, and never engaged in any other business than that of farming. He is a member of the Farmers' Mutual Benefit Association and was president of the Vermillion county association up to the time of his election as secretary of state. He still retains his membership.

Mr. Matthews, while faithfully attending to his duties as state officer, still keeps up his interest in farming and the class of workers to which he belongs. He has done much in improving the breeds of cattle and domestic animals by importing valuable specimens, and was the founder of the Short Horn Breeders' Association of Indiana, the first association of the kind ever organized in the United States. He was also originator of the American Short Horn Association of the United States and Canada.

While his business is that of farming, he is, nevertheless, a fluent speaker and without a man of fine address and genial manners.

Mr. Matthews has three children; the eldest, Mary, is the wife of Senator Cortez Fuling, of Greensburg; Henick C. Matthews and Miss Helen, a school girl, aged fourteen.

LIEUTENANT GOVERNOR.

MORTIMER NYE.

Mortimer Nye, candidate for lieutenant governor, is fifty-two years of age. Mr. Nye is a native of Ohio, but has resided in Laporte, Ind., for the past fifty years. In 1867 he was admitted to the bar, and today stands in the front rank of successful attorneys. He has been elected mayor of Laporte four times; was chosen a Cleveland and Hendricks elector in 1884, receiving a larger vote than any of his colleagues; was additionally honored by them by being selected as messenger to carry the vote to Washington. In 1889 he was elected by the legislature a member of the supreme court commission from the Fifth district.

SECRETARY OF STATE.

W. R. MYERS.

William R. Myers, candidate for secretary of state, was born in Clinton county, O., June 12, 1848, removed to Madison county, Ind., 1865, his childhood and youth were passed upon a farm, received a common school education, in 1876 learned the trade of a printer, followed this avocation during the summer and taught school during the winter seasons until 1881. In 1878 was elected surveyor of Madison county and continued in that office until he enlisted in the Union army in 1861; served throughout the war, rising to the rank of captain, after the close of the war again taught school, studied law, and was admitted to practice in 1871; in 1876 and 1880 was superintendent of the public schools of Anderson, Ind., and remained a member of the school board until elected to congress. Was elected a representative from Indiana to the Forty sixth congress. In 1888 was nominated for secretary of state by the Democratic convention. He was elected and re-elected in 1884. In 1888 he was nominated for lieutenant governor, but was defeated with the rest of the ticket. He was nominated for secretary of state by acclamation.

AUDITOR.

JOHN OSCAR HENDERSON.

John Oscar Henderson was born in the village of New London, Howard county, Ind., forty four years ago. At the break ing out of the war of the rebellion the Henderson family moved to Kokomo, where they have since resided. In 1876, in conjunction with his brother and present partner, Thomas J. Henderson, took hold of the Kokomo Dispatch, the first and only Democratic paper in Howard county. He discovered and brought to state prominency Mary Hartwell Catherwood, now noted as a magazine writer; but perhaps his greatest literary achievement was the publication in 1887 of James Whitcomb Riley's poem, "Leonainie," as a posthumous poem of Edgar Allan Poe. This poem at once gave Mr. Riley a national fame, which has been justly, it is said, in every tongue in Christendom. Mr. Henderson managed Hon. John W. Kern's campaign for reporter of the supreme court in 1884, and was largely instrumental in his nomination.

In 1885 President Cleveland appointed him collector of the Twenth Internal revenue district of Indiana, which position he held until the consolidation of the districts two years later.

He served his party for years as chairman of the county central committee, and in 1888 was a member of the executive committee of the Democratic state central committee. He was a delegate to the Democratic national convention of 1888, was secretary of the Indiana convention, and also an assistant secretary of the national convention. In 1890 he was elected president of the Democratic Editorial association.

Two years ago he was nominated by his party for auditor of state, and at the election that year received the third highest vote cast for any candidate.

He is a member of the press club, the Hendricks club, the Cleveland club, and the Commercial club, of Indianapolis. He is a Scottish Rite, or 32 degree, Mason. He was renominated by acclamation.

TREASURER.

ALBERT GALL.

Albert Gall, treasurer of state, was born in Green Bay, Wis., in 1852. His father, Dr. Alvis Gall, and his mother, Caroline E. (Hock) Gall, were natives of Germany. They came first to Chicago, then, after a few days spent in Pennsylvania, to this city. Here Dr. Gall attained high rank in his profession, and was regarded as one of the most eminent physicians of the west. He was medical director of General Peck's corps during the war, and from 1862 until 1868 was consul for the United States at Antwerp. Albert was educated in the common schools of Indianapolis and Frankfort-on-the-Main, Germany. Before entering upon a business career here, he spent a number of years in California, going there and returning before the times of transcontinental railway. He got back to this city from the Pacific coast in 1884. Soon after that he engaged in business with J. & G. Kraus as dealers in carpets, curtains and similar goods. In a short time George Krauss retired on account of ill health, and the firm became Kraus & Gall, continuing under that style for three years. A change was then made to Gall & Rush, which continued for three years more, when Mr. Gall took entire charge of the business, and has since conducted it entirely in his own name. The carpet house of Albert Gall is not only one of the oldest in Indiana, but it is the largest and best in the state, and has a most enviable reputation in the trade.

In 1880 Mr. Gall, who had never, in any sense, been an office-seeker, was brought forward by his friends and by leading Democrats in the state, as the man most likely to add strength to the ticket as their candidate for secretary of state. He was elected by a large majority over a strong competitor, and was duly installed into the responsible office which he now so acceptably fills. So far he has given fine satisfaction, and there has been no criticism on his official course from even his most bitter partisan opponents.

Mr. Gall is a member of the Mozart choir, Lyric, Independent Turners, of the German-American association, Hendricks club, an honorary member of the Cleveland club, and in this connection it may be added he has been a consistent Democrat since his boyhood, dating back to the days of the Pierce-Scott campaign. Mr. Gall is also one of the governors of the board of trade, and is a member of the Commercial club. He was married in 1860 to Miss Louise Buschkamp, daughter of the late Henry Buschkamp, one of the pioneer German settlers of Indianapolis. He has four children—Edwin F., who has personal supervision of his father's extensive business, Albert Alvis, Fred Paul Rush and Bertha Caroline. He is an accomplished linguist, speaking English, German and French fluently. He was renominated by acclamation.

CHIEF BUREAU OF STATISTICS

WILLIAM A. PEELE, JR.

William A. Peele, jr., candidate for the office of chief of the bureau of statistics, was appointed three times and elected the fourth by the people. He was born in Wayne county, this state, in 1846. He has lived in Indianapolis since 1847, and has been deputy to several secretaries of state. He was renominated by acclamation.

SUPREME COURT REPORTER.

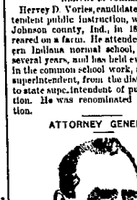
SIDNEY E. MOON.

Sidney E. Moon, candidate for supreme court reporter, was born in Butler county, O., forty nine years ago. When five years old his parents moved to Fulton county, Ind., where he has ever since resided. He was brought up on a farm, but owing to an accident at the age of twenty, which permanently disabled his right hand, he prepared himself for school work and engaged in teaching for many years, the last eight of which he taught in the Kokomo city schools. While yet in school work, in 1872, Mr. Moon accepted the Democratic nomination for sheriff and was elected. Two years later he was re-elected.

He was a member of the house of representatives in 1880 and 1890. In the session of 1889 he was a member of the special committee which drafted and reported to the house the present school book law.

Mr. Moon is married and has a family of four children. He resides in Rochester. He was nominated by acclamation.

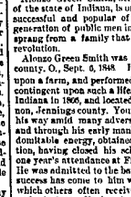
SUPERINTENDENT PUBLIC INSTRUCTION.



HERVEY D. VORIES.

Hervey D. Vories, candidate for superintendent public instruction, was born in Johnson county, Ind., in 1856, and was reared on a farm. He attended the Northern Indiana normal school, Valparaiso, several years, and has held every position in the common school work, as teacher or superintendent, from the district schools to state supt. intendent of public instruction. He was renominated by acclamation.

ATTORNEY GENERAL.



ALONZO GREEN SMITH.

Alonzo Green Smith, attorney general of the state of Indiana, is one of the most successful and popular of the younger generation of public men in the state. He sprang from a family that antedates the revolution.

Alonzo Green Smith was born in Mexico county, O., Sept. 6, 1848. He was raised upon a farm, and performed all the labors contingent upon such a life. He came to Indiana in 1866, and located at North Vernon, Jennings county. Young Smith made his way amid many adversities as a boy, and through his early manhood, by an indomitable energy, obtained a fair education, having closed his school days with one year's attendance at Franklin college. He was admitted to the bar in 1870. His success has come to him without the aid which others often receive from friends and relatives. He has forged his way to the front, and has long been regarded as one of the best lawyers in southern Indiana.

In politics Mr. Smith has been no less successful than in law. He has been an earnest worker for his party in every campaign during the past twenty-three years. In 1888 he was elected state senator from the counties of Jennings and Jackson, running ahead of his ticket. He was a leader on the most important committee of the senate—the judiciary, and quickly became the most conspicuous member of that body in debate. He was always regardful of the people's interest and is deservedly in favor with the masses. At the close of the special session he was chosen by his colleagues as president of the senate, and on the resignation of Governor D. D. Manson, lieutenant governor, Mr. Smith, by virtue of his office, became the presiding officer of the Indiana state senate, and as such presided over the memorable contest which resulted in the election of David Turple to the United States senate over Benjamin Harrison. In 1888 Mr. Smith was secretary of the senate, and in that position his record was faultlessly correct.

In 1890 he was nominated by his party for attorney general of the state. In the campaign following he bore a conspicuous part and was elected by a large majority. He took the oath of office as attorney general of Indiana on the 23d day of November, 1890, and from the beginning it was felt and seen that a new era in that office had been inaugurated. His first was to widen the influence of the office and utilize its powers in the interest of the people.

The construction of the new tax law by the attorney general has brought millions of hidden wealth to light, and caused it to be placed where it will aid in bearing the public burden.

The conflict of Attorney General Smith and the banks, looking to the taxation of their deposits is one of the notable features of his administration.

It is by the judicious use of such articles of diet that a constitution may be gradually built up until strong enough to resist every tendency to disease. RAILWAY RUMBLINGS.

The Keystone Cycle Club Makes Its Initial Run—Status of the Officers and Shops.

The first run of the Keystone Cycle club was made to New Haven and return yesterday morning and was in every way a success. Thirty-three riders participated, twenty-four of whom were members of the club. They are as follows: Captain A. M. Tower, Lieutenant J. B. Quillinan, Secretary I. F. Bowey, Treasurer J. H. Hobrock, Bugler Wm McClellan, and Messrs A. C. Ratt, F. M. Cairns, M. H. Hobrock, G. I. Scott, W. Y. Cherry, Jno. Casey, F. H. Fink, J. J. Backes, E. C. Hill, C. W. Lee, M. J. Lee, I. N. Kucher, J. L. Miller, I. H. Sinclair, W. W. Adams, F. F. Gobben, F. D. Hoham, P. R. Hartnett and W. F. Gebhard. Outside riders were Messrs. Fox, F. O'Brien, Cliff Cherry, Lipes, A. Lamar, Goche, Nordeen, Jardane and Helling. The officers are much pleased with the success of the first run and intend doing all in their power to make all the runs as pleasing, if not more so, than the initial one.

Although the weather was cloudy and threatening it had no depressing effect on the happy riders, and even had it been felt by any it would have been instantly dispelled by the enchanting notes which Bugler McClellan managed to evoke from his bugle. Mr. Quillinan was the only one who had any hard luck, and by the aid of a farmer the difficulty was soon removed. The club invites all riders of good standing to participate in these runs and the date of the next one will be May 15, to the end of the gravel on the Huntington road. May 22 and 30 the club will run to Peru and return.

Captain R. H. Harrison, foreman of the iron department in the car shop, is again a victim to rheumatism.

Slugger John L. Sullivan and his theatrical troop were passengers on Pittsburg limited No. 8 last evening.

Joseph Carty is at his forge in the Pittsburg blacksmith shop again, after an absence of a week with a burned eye.

George Willcocks and T. Keller are missing from the Pittsburg paint shops this morning. They are supposed to be sick.

B. J. Johnson appeared at the Pittsburg car shops this morning minus his elegant moustache. The boys did not recognize him.

J. R. Medsker and Richard Hartnett, of the Pittsburg car shops, will serve on the election board in the Fourth ward, sixteenth precinct.

Engineers O. R. Ellenwood and J. McMullen, of the Pittsburg, reported for duty this morning. The gentlemen have just recovered from sickness.

Herman Hench, of the Pittsburg shops, is suffering with a severe case of la grippe. Mr. Hench had the misfortune to lose his wife about a month ago.

A freight train over a mile long, consisting of 131 cars, passed over the New York Central road last Friday. This is said to be the longest train ever run in the United States.

Pittsburg passenger engine No. 175 was turned out of the shops this morning, thoroughly repaired and repainted. Nos. 250 and 422, from the eastern division, were taken in the shops for repairs.

Saturday evening, when their day's work was ended, John Wagner, Charles Helle and A. Houch, of Rhinesmith & Simonson's factory, hastened to the store house to get their bicycles. They found the wheels securely chained together and locked with a strong padlock. They secured a file, and in an hour released the wheels. The boys are mad.

The timing car service on the Chicago and Erie road is to be discontinued. Ever since it was started, the cars have been operated at a loss of about $200 to $300 a month to the company.

From official statistics 21,851 railway employes were killed or injured, this county, 1891. Of this number of actual ties about one half were due to the primitive and old time mode of coupling cars.

Owen Rice, who died at Rome City last Thursday, was at one time general passenger agent of the Cincinnati, Wabash and Michigan road, now the Big Four. Ill health compelled him to resign the position some years ago.

The New York Central railroad has commenced laying out the new town of Depew, five miles east of Buffalo. Depew will be built upon the principle of Pullman, Ill., but on a larger scale. The works of the company will cost $2,500,000.

A company was incorporated Thursday, in Ohio, to build a railroad from Steubenville to Toledo, through Jefferson, Harrison, Tuscarawas, Holmes, Wayne, Ashland, Huron, Seneca, Sandusky, Wood, Lucas, Fulton and Williams counties.

A locomotive on the Reading road recently made a mile in thirty nine and one-fourth seconds, drawing four passenger coaches. That means a little more than ninety one miles an hour, and indicates that the even hundred is within the possibilities.

Section foremen on the Wabash road have received notice that the inspection of the roadbed for 1892 will take place the second week in November. The company offers two prizes, one of $15 and one of $25, to the foreman whose section is in the best condition.

The Lake Erie and Western company, to accommodate its increasing business, has placed another passenger train on the road. Conductor Charles J. Longergan, who was running the local freight, has been promoted to the passenger service and given the new train.

The Wabash crossing at Lafayette street was flooded again this morning. The water was shoe top deep. Three men can abate this nuisance forever by three or four hours' work, and the company should be forced to have the work performed. The crossing has been in this condition for two years.

Pittsburg round house off duty list. Engineer H. Schold, sick; Fireman C. H. Pratt, family sick, Fireman J. Wiwer, sick, Fireman A. E. Lyle, family sick, Fireman W. R. Gillespie, mother sick; Fireman D. G. Anderson, family sick. A. Schirmeyer, machinist, reported for duty after a week's illness.

The Baltimore and Ohio railroad company is in the fight against the tax law. Last week attorneys of the road had filed in the Porter circuit court injunction proceedings against the treasurers of Lake, Porter, St Joseph, Marshall, Kosciusko, Elkhart, Noble, Laporte and Dekalb counties, restraining them from collecting taxes under the new assessment.

About a year ago Isaac Crumrine, an engineer of the Clover Leaf road, was killed in a wreck. He was insured for $3,000 in the Railway Officials and Employe's Accident association who now refuse to pay some technical grounds to pay the amount to his heirs. The latter have brought suit to recover the amount due them. Mr. Crumrine was formerly an engineer on the Panhandle but resigned to go on the road for the Baldwin locomotive works, but for several years prior to his death has been running an engine on the Clover Leaf road.

A. J. Mourning, a postal clerk between Toledo and St. Louis, has brought a suit in the courts at Toledo against the Wabash railway company to recover damages in the sum of $20,000 for the injuries received in a wreck near Decatur, Ill., several months ago. As a result of the injury Mr. Mourning will probably never again be able to perform work that requires any action of the limbs. A very kind action on the part of the government is its payment to Mr. Mourning the sum of $1,200, the amount of one year's salary, and he also receives $20 per week from an accident insurance company. The government's salary allowance to him expires in August.

Isaiah Brunner, a carpenter employed in the cast shops of the Pittsburg, returned from Harleysville, Pa., last Friday and is now confined to his home with a severe attack of quinsy. Concerning the gentleman the Harleysville Weekly News says: "Last week Isaiah Brunner, who sixteen years ago left for Indiana, paid his parents an unexpected visit. He is a carpenter by trade and is employed by the Pittsburg railroad company. On Sunday Mr Brunner's relatives met at the residence of Solomon Brunner, in this town, where a pleasant family reunion was held. Forty three were present and took dinner. Mr. Brunner will tomorrow, Thursday, leave for Indiana."

The Lagrange Standard has the following to say of the new Wabash line: "Information reaches the Standard from an authentic source that the Wabash Railroad company is already buying land and making arrangements for establishing their main shops at Mount pelier, Ohio. It is said that the present shops at Butler will be transferred to Montpelier, which will be convenient for both branches of the line. It is likely that Wolcottville or Hawpatch stand a good chance of obtaining the division point for the run between Chicago and Detroit, but not, so our information runs, for the shops. Several acres of ground have already been purchased for the depot yards at Hawpatch, which will be at the crossing, on the west side of the wagon road, south of the village. The Wabash people are making some very long sidetracks in the country, about a mile and a half at South Milford and a mile in clearspring township."

HE NEEDS HELP!

A Prominent Professional Man Appeals to the Editor.

Some Good and Common Sense Advice Which Was Given Him and Which Can Safely be Followed by Others.

EDITOR SENTINEL:

I see that you have been publishing a number of interviews with prominent people of late, and that you have been thoroughly investigating the subject upon which you have made the interviews. I write you for information.

I am a physician in regular practice and in good standing, and while I have relieved much suffering and performed many cures, I myself have been a great sufferer for the past twenty years. I have had strange and unaccountable pains throughout my body, periodical headaches, sickleness of appetite, being ravenous one day and unable to touch food the next. My sleep is irregular, my mouth has tasted badly, and I am thirty much of the time and feverish. I have diagnosed these troubles and treated myself for various things, but I have grown worse instead of better. In the interviews you have published I recognize my own symptoms, and if they are true I wish to know more about the cure of which they speak. While I am a physician, I am ready to use anything that holds out any promise of relief or cure. May I ask you to answer me, either by letter or through your columns, and greatly oblige?

The above letter is so frank, so earnest and outspoken that we shall depart from our usual rule and answer it, stating exactly what we know upon the subject. The interviews which we have published, and to which the doctor refers, are true in every respect. We were prompted to make them because there is so much suffering prevalent in the community and so great a demand on the part of the public for a complete investigation. We found, as will be seen by the interviews, that there is not a single case in which the troubles were not relieved or removed by the careful use of Warner's Safe Cure. Many of the cases were much more serious than that of the doctor above described, and we have not the slightest doubt that he will be able to experience complete relief by the same means.

There is more sickness throughout the land than there should be—more than there is any need of. People need not suffer if they will use proper care and the right remedy. Annoying symptoms, pains, weaknesses are common, and far too often are due to neglect. Men and women endure agonies when they should be happy; suffer pain when they might be wholly free from it. The doctor suffered for twenty years, but he did not take the right remedy. We earnestly hope that none of our readers will neglect symptoms until they run into diseases, or put off the time when they should attend to them, or neglect to use the means heat adapted for their relief.

Exhalations of smoke do not always indicate the passage of a train of thought.

Do not make a mistake in buying family medicine. Moffat's Pills cure all stomach and liver diseases, and purify the blood. Try them.

A little weed has no more right to be in the garden than a big one.—Ram's Horn.

Mr. J. F. Blaire, an extensive real estate dealer in Des Moines, Iowa, narrowly escaped one of the severest attacks of pneumonia while in the northern part of that state during a recent blizzard, says the Saturday Review. Mr. Blaire had occasion to drive several miles during the storm and was so thoroughly chilled that he was unable to get warm, and inside of an hour after his return he was threatened with a severe case of pneumonia or lung fever. Mr. Blaire sent to the nearest drug store and got a bottle of Chamberlain's Cough Remedy, of which he had often heard, and took a number of large doses. He says the effect was wonderful and that in a short time he was breathing quite easily. He kept on taking the medicine and the next day was able to come to Des Moines. Mr. Blaire regards his cure as simply wonderful. Fifty cent bottles for sale by druggists.
